

Stream Video Recorder 210

A 24/7 local recording solution—perfect for homes and small businesses

The SVR210 records one to eight Alarm.com or third-party cameras at up to 4MP. Two HDMI ports enable local viewing via a TV or monitor. A USB port and cloud-connected capabilities enable customers to quickly download clips and view footage remotely. The SVR210 also includes a hardware port that supports one and two TB hard disk drives.

Key Features

NDAA-compliant solution*

The SVR210 is fully compliant with section 889 of the NDAA.

Local video network

Two ethernet ports allow a multi-input switch to be connected to one port and ethernet to the other. This achieves the same effect as creating a video network with up to eight PoE cameras.

Interactive Smart View

The SVR210 features the same Smart View Player as our other continuous recording solutions—accessible anytime from the customer website and mobile app. Easily review footage, find key events, and identify clips for download.

USB 3.0

The SVR210's USB 3.0 port lets customers quickly download clips using a simple USB flash drive.

Visit the Alarm.com Partner Portal to access service package pricing, installation, and support resources.
